Anthracite galvanized dial, with tachymeter/pulsometer scale.

Model 144 Ti DIAPAL with transparent back made of sapphire crystal glass and Ar dehumidifying technology. (Illustration 1:1)

Model 144 Ti DIAPAL

DIAPAL® – lubricant-free escapement

Ar® dehumidifying technology for enhanced freedom from fogging

Second time zone display

Case made of bead-blasted pure titanium

Anti-reflective sapphire crystal glass

Exquisitely decorated movement

Anthracite galvanized dial, UV resistant

Inner tachymeter/pulsometer scale

**Pressure resistant to 20 bar
(= 200 m water depth)**

Resistant to low pressure

Absolutely reliable functionality, perfect ergonomics, simple operation — these are a few of the characteristics of the 144 model series. Watch lovers will also value these features of the 144 Ti DIAPAL model made of lightweight titanium. In terms of technology, this watch is the first in its series featuring DIAPAL® technology and a lubricant-free escapement. We use special combinations of materials that create no friction, even without lubrication, thus ensuring the long-term accuracy of the movement. A second technology in the 144 Ti DIAPAL is a major innovation for a mechanical watch: thanks to Ar dehumidifying technology, the movement is kept in an environment that is almost completely

Model 144 Ti DIAPAL — Luminous. (Illustration 1:1)

dry. This reduces aging and prevents the crystal from fogging when exposed to sudden cold, ensuring reliable functionality and accuracy for a longer period of time. And the display of a second time zone helps frequent flyers and world travelers keep track of the time at a glance.
