Low pressure resistant

Back and side views. (scale: 1:1)

534 Mother-of-Pearl S: luminous design. (scale: 1:1)

A multifaceted beauty – in every sense of the word. This thought is bound to cross the mind of anyone admiring the artfully faceted bezels of the models 534 Mother-of-Pearl S and 534 Mother-of-Pearl W. Masterfully executed, their impressive design exudes exceptional brilliance. The 24 rhombus-shaped facets, meticulously attached step by step to elegantly frame the dial, are more than just visually stunning details. They symbolize the 24 hours of the day, turning these timepieces into a harmonious homage to the passage of time.

This concept is echoed in the dials, where the hour markers subtly reflect the rhombus motif of the bezel. Despite the shimmering play of facets, the overall appearance remains clean and functional. Hands and appliques attached by hand are perfectly aligned, their proportions enhancing the design's harmony. Luminous coatings ensure optimal readability even in darkness. The rounded crown, discreetly highlighted, enhances operability while further accentuating the bezel. Crafted from polished stainless steel, the case amplifies the jewelry-like character without compromising on functionality—a balance that continues in the mechanical durability of both watches, achieving a perfect synergy of practicality and aesthetics.

The dials, available in black or white shimmery mother-of-pearl, are equally captivating. Beyond imparting a timeless elegance, this natural material exudes warmth and authenticity. Thanks to the unique structure and play of colors inherent to mother-of-pearl, each watch is truly one of a kind. With a diameter of 34 mm, these timepieces offer exceptional comfort and complement any wrist beautifully.

The versatility of both models becomes evident in the choice of straps: a fine-link stainless steel bracelet, a delicate calfskin leather strap, or an Alcantara* strap available in sand-colored or berry red tones. Both Alcantara* straps are equipped with a convenient quick-adjustment strap system, ensuring adaptability to any occasion or style.

Large picture on the front:

534 Mother-of-Pearl W: berry red Alcantara* strap with quick-adjustment strap system. Dial made of white shimmery mother-of-pearl.

534 Mother-of-Pearl S: fine-link stainless steel bracelet. Dial made of black shimmery mother-of-pearl. Warranty 2 years.
