**104 St Sa I A:** luminous (Fig.: 1:1)

## Series 104 St Sa

The classic pilot watch with anthracite electroplated or dark blue dial.

**104 St Sa I A:** Anthracite electroplated dial, finished with a sunburst decoration

**104 St Sa I B:** Dark blue dial, finished with a sunburst decoration

**Case made of polished stainless steel**

**Sapphire crystal glass on both sides**

**Pressure-resistant to 20 bar**

**Resistant to low pressure**

This series has a clearly structured look which makes it easy to read the time, date and day of the week: these are classic pilot watches in the time-honoured SINN tradition. You can see why they are among the best-loved timepieces we produce, and now you can choose between two attractive new dials.

With the 104 St Sa I B we offer a dark blue dial, finished off with an elegant sunburst decoration. This traditional ornamental grinding on the dial reflects different nuances of light.

The 104 St Sa I A has a distinctive colouring, with its special anthracite electroplated dial. The sunburst decoration underscores the timeless elegance of this watch.

Sapphire crystal is used on both instrumental timepieces, for the crystal on the front and the transparent back. The pilot's bezel can be rotated in both directions. With minute ratcheting. It is captive in the polished stainless steel case and has a luminous triangular key marker.

Both watches are pressure-resistant up to 20 bar and resistant to low pressure.

Large picture on the front:

**104 St Sa I A:** fine grey Alcantara strap.

**104 St Sa I B:** solid stainless-steel bracelet.
