**Resistant to low pressure**

The first Frankfurt Financial District Watch was unveiled in 1999 and marked a landmark decision for our company. Up until then, the name Sinn Spezialuhren had been synonymous with innovative timepieces specially designed for pilot and diving missions. The expansion towards classic, elegant series proved to be hugely popular with our customers. After all, a Frankfurt Financial District Watch is the perfect accessory for festive occasions or day-to-day business – exhibiting both elegance and the durability typical of Sinn Spezialuhren.

The appeal of this series is now being further enhanced by the new models 6060 B and 6068 B. These watches gain their allure from the blue dial, which is exquisitely finished with a sunburst decoration.

Both models also feature characteristics that connoisseurs of this series have come to appreciate. For example, the Frankfurt World Time Watch 6060 B is characterised by three time zones that can be read simultaneously, while the Frankfurt Financial District Watch 6068 B displays two time zones. Common to both is the exquisitely decorated movement. Particularly eye-catching are the Geneva stripes and blued screws. Sapphire crystal is used for both the watch crystal and the transparent case back, offering an impressive view of the bull and bear rotor engraving.

While the case is made of polished stainless steel, the appliqués attached to the blue dial are luminous, along with the hour and minute hands. Both watches are also waterproof and pressure-resistant up to 10 bar and resistant to low pressure.

Models 6060 B and 6068 B each come in a fine wooden case with a solid stainless-steel fine link bracelet, cowhide strap, a band replacement tool, spare spring bars, an Eschenbach watchmaker's loupe, a care cloth and a brochure.
