# 6200 WG MEISTERBUND I

THE 55-PIECE LIMITED-EDITION  
WATCH WITH HAND-WOUND CALIBRE

The **6200 WG Meisterbund I** comes in a fine wooden case (pictured right) with an alligator leather strap, available in the colours mocha (pictured left) or black (pictured centre). Also contained in the case is a brochure, an Eschenbach watchmaker's loupe, a care cloth and a warranty card. Watch diameter: 40 mm. (Figures left and centre 1:1)

## 6200 WG Meisterbund I

The 55-piece limited-edition watch with hand-wound calibre.

**Sinn Spezialuhren & UWD & SUG = Meisterbund, or cooperation of master craftsmen**

**Limited to 55 pieces**

**Case made of 18-carat white gold, polished, with satinised sides**

**Fine, exquisitely decorated hand-wound calibre UWD 33.1**

**Stop-seconds function**

**Flying barrel**

**Guilloché, anthracite electroplated dial**

**Sapphire crystal glass on both sides**

**Pressure-resistant to 10 bar**

**Resistant to low pressure**

The wonderful, 55-piece limited-edition 6200 WG Meisterbund I seamlessly follows on from the hugely successful rose gold 6200 Meisterbund I – in many ways an extraordinary watch that set several milestones. These two masterpieces mark the celebration of the company's 55th anniversary in 2016.

*"Scorn not the Masters, I bid you, and honour their art!"*

This is a passage taken from the final address of Hans Sachs in the well-known opera *The Mastersingers of Nuremberg*. Three "masters of their trade" have also come together for the 6200 WG Meisterbund I. For the "Meisterbund" edition is the result of a collaboration between Uhren-Werke-Dresden (UWD), Sächsische Uhrentechnologie GmbH (SUG) from Glashütte and Sinn Spezialuhren.

SUG is responsible for building and manufacturing the case made of 18-carat white gold, which proudly bears the "MEISTERBUND" engraving on the side – a distinguishing feature of our Meisterbund series.

Sinn Spezialuhren shapes the "face" of the 6200 WG Meisterbund I, which is in keeping with our traditional masterpieces, thanks to a guilloché and anthracite electroplated dial, while being suitable for everyday use. The 6200 WG Meisterbund I is thus also pressure-resistant up to 10 bar and resistant to low pressure.

The fine, exquisitely decorated hand-wound calibre UWD 33.1 has a power reserve of 55 hours. The six eccentric weights on the balance rim for precisely balancing the balance system are also clearly visible. In accordance with the functional principle of a swan-neck regulator, the regulator system enables zero-play precision adjustment and isochronal adjustment of the watch.

UWD is responsible for manufacturing the high-quality hand-wound calibre UWD 33.1, which proved hugely successful in the rose gold edition, where it was used for the first time in series production.

The fact that the watch is built and produced in Germany and that all key watch components are made in Germany is what truly makes the "Meisterbund" edition something special. We are proud of the fact that the "Made in Germany" seal of quality is held in particularly high regard amongst many watch experts. This confirms that we were right to focus on harnessing the innovative strength and expertise of German craftsmanship and engineering to create the "Meisterbund" edition.

### *Hand-wound calibre UWD 33.1*

The centrepiece is the fine, exquisitely decorated hand-wound calibre UWD 33.1 made of nickel silver – a contemporary technical interpretation of a design and development evoking a traditional sense of quality. With a flying barrel supported on one side, it is a prime example of precision and functional robustness while also expressing watchmaking craftsmanship at its best.

The movement can be adjusted by shifting the eccentric weights in the balance system. This also offsets the imbalance in the complete oscillating system of the watch. The regulator system, on the other hand, provides a convenient means of precision adjustment and beat setting adjustment. Also noteworthy is the fact that all parts of the movement are exquisitely decorated. Plates and cocks are characterised by matte, diamond-planed edges. The combination of matte and polished surfaces gives the movement an exquisite feel, while the diamond profiles underscore the high level of quality. The impression of a consistently designed watch is completed by the fact that the manufactured movement, made of nickel silver and with a diameter of 33 mm, so harmoniously fits into the white gold case which has a diameter of 40 mm.

In terms of style and design, the 6200 WG Meisterbund I lives up to its name. It is thus a worthy successor, skilfully continuing our Meisterbund series in the spirit of traditional watchmaking craftsmanship.

Each movement is made up of a number of small components, a task requiring the utmost precision.

It takes a "keen eye" and years of experience to finish the surface of a case.

A view of our Römerberg 34 branch salesroom in Frankfurt am Main city centre – the historic “Haus zum Goldenen Rad” directly opposite the Frankfurt Römer, the city hall since the 15th century.

The building of the Sächsische Uhrentechnologie GmbH (SUG) in Glashütte is on the “Glashütte watch mile”, in the immediate vicinity of the most prestigious Glashütte watch manufacturers. The historic, listed façade (pictured) once adorned Dresden’s Kaiserhof Hotel, built in 1889.

Historic architecture blends with state-of-the-art technology. The production and business premises of the Uhren-Werke-Dresden (UWD) are located on Ullersdorfer Mühle – a very special place on the edge of the Dresden Heath.
