

1736 Classic

- Case made of stainless steel, polished
- Diameter of case: 36 mm
- High-quality vitreous enamel dial featuring classic design
- Sapphire crystal glass
- Transparent case back made of sapphire crystal glass
- Water-resistant and pressure-resistant to 10 bar
- Low pressure resistant

The most striking characteristic of the 1736 Classic is its clear focus on the hour, minute and date display. The elements are arranged in such a way as not to distract from the classic design of the case. The striking visual impression is underscored by a pure white, particularly exquisite lacquered enamel dial. The words Sinn Frankfurt am Main serve both as an indication of the watch's provenance and a seal of quality. The discreet lettering allows plenty of room for the Roman numerals on the edge of the dial, making the watch eminently easy to read. Many watch lovers have expressed a desire for a smaller (36 mm), elegant and traditional watch, and the 1736 Classic model delivers. The timepiece combines classic elegance with technical precision. The anti-reflective, sapphire crystal base allows an unobstructed view of the impressive movement with blued screws. And as connoisseurs of Sinn watches have come to expect, the watch is perfectly suited for everyday use. It is water-resistant, pressure-resistant to 10 bar (equivalent to an underwater depth of 100 meters) and resistant to low pressure.
