

## 534 Mother-of-Pearl S

The elegant ladies' watch with a faceted bezel.

- Bezel with artful rhombus-shaped faceting
- Case made of stainless steel, polished
- Dial made of black shimmering mother-of-pearl
- Appliques attached by hand
- Sapphire crystal on both sides
- Transparent case back made of sapphire crystal
- Water-resistant and pressure-resistant to 10 bar
- Low pressure resistant

A multifaceted beauty – in every sense of the word. This thought inevitably comes to mind when admiring the artfully faceted bezel of the 534 Mother-of-Pearl S. Masterfully designed, it features an extraordinary brilliance that captivates instantly. The bezel's 24 rhombus-shaped facets, meticulously attached step by step to frame the dial, are more than just an elegant detail. They represent the 24 hours of the day, transforming this timepiece into a harmonious homage to the passage of time.

This theme is subtly reflected in the dial, where the hour markers mirror the rhombus motif of the bezel. Despite the shimmering interplay of facets, the overall aesthetic remains clean and functional. Hands and hand-attached appliques are perfectly aligned, their proportions enhancing the design's harmonious appearance. Luminous coatings ensure optimal readability even in the dark. The rounded crown, discreetly accentuated, not only facilitates operation but also draws attention to the bezel as a central design feature. The polished stainless steel case amplifies the jewelry-like character of the watch without compromising functionality—a balance that extends to its mechanical durability, perfectly blending everyday practicality with elegant aesthetics.

The black shimmering mother-of-pearl dial adds an enchanting touch. Beyond its timeless elegance, this natural material exudes warmth and authenticity. Each mother-of-pearl dial is unique, its structure and colour play ensuring that every watch is one of a kind.
