

757 III

The Duochronograph.

- Limited edition to 75 units
- Case made of stainless steel, satinized
- Case made with TEGIMENT Technology and therefore especially scratch-resistant
- Nickel-free case back without TEGIMENT Technology
- Ar-Dehumidifying Technology enhances functional reliability and freedom from fogging
- Magnetic Field Protection up to 80,000 A/m
- Functionally reliable from -45°C up to +80°C
- Sapphire crystal glass
- Captive pilot's bezel with minute ratcheting
- Pressure-resistant to 20 bar
- Low pressure resistant
-

The 756 and 757 series feature a striking design, contrasting displays and clear readability. We have developed a special, new colour scheme for the 756 III and 757 III editions, which are limited to each 75 units. High-contrast, matt colours with a glossy, fine-satinised, stainless-steel case and sapphire crystal. The white hour indices and the 3, 6, 9 and 12 hour counters against the dark-blue dial ensure optimal readability. The chronograph hands and minutes stand out in orange, while warm-grey counters accentuate the striking face of these duochronographs. The range of technologies in the watches includes Magnetic Field Protection up to 80,000 A/m, Ar-Dehumidifying Technology for increased functional reliability and freedom from fogging, Temperature Resistance Technology for reliable function in temperatures of -45°C to +80°C, and a highly scratchproof case based on TEGIMENT Technology. The watches are also resistant to low pressure and pressure-resistant to 20 bar.

Technical details

Mechanical Movement

The information on the mechanical movement corresponds to the current production situation in Frankfurt am Main. Due to technical changes, it may happen in individual cases that stock items of our sales partners deviate from this information.

- Valjoux 7750
- Self-winding mechanism
- 25 bearing jewels
- 28,800 semi-oscillations per hour
- Seconds stop function
- Anti-magnetic as per DIN 8309

Case

- Case made of stainless steel, satinized
- Sapphire crystal glass in front, anti-reflective on both sides
- Case back screw-fastened, nickel-free
- Crown screwable
- Meet the technical requirements for waterproofness, as set out in standard DIN 8310
- Pressure-resistant up to 20 bar
- Low pressure resistant

Functions

- Hours, minutes
- Date display
- Chronograph
- Pilot's bezel with minute ratcheting and luminous key mark

SINN SPEZIALUHREN GMBH

SINN Technologies

- TEGIMENT Technology, therefore especially scratch-resistant
- Captive bezel
- Ar-Dehumidifying Technology enhances functional reliability and freedom from fogging
- Temperature resistance technology, therefore functionally reliable at temperatures from -45°C up to +80°C
- Magnetic Field Protection up to 80,000 A/m
- Push-pieces with D3-System

Dimensions and Weight

- Case diameter: 43 mm
- Band lug width: 22 mm
- Case thickness: 15 mm
- Weight without strap: 111 gramme
