

T2

The Diving watch made of high-strength titanium with captive safety bezel.

- Case made of high-strength titanium, bead-blasted
- Tested based on European diving equipment standards and certified by DNV GL
- Pressure-resistant to 200 bar, certified by DNV GL
- Captive Safety Diver's Bezel with guard to prevent accidental misadjustment
- Bezel with TEGIMENT Technology and therefore especially scratch resistant
- Arrow-shaped minute hand for clear reading of set time
- Colour-differentiated luminous paint for minute hand and key mark on the bezel for clear reading of set time
- Ar-Dehumidifying Technology enhances functional reliability and freedom from fogging
- Functionally reliable from – 45 °C up to + 80 °C
- Sapphire crystal glass
- Mission timer design for optimum readability
- Low pressure resistant

Safety is of prime importance for professional divers. For this reason the diving watch T2 is equipped with a Captive Safety Diver's Bezel which is distinguished by two basic components: its secure attachment and rotation protection. The arrow-shaped minute hand is being used here for the first time in one of our diver's watches. The set time is especially easy to read thanks to the different shapes of the hour and minute hands. To ensure that this is also possible in the dark or in adverse viewing conditions, the T2 also features colour-differentiated luminous paint for the minute hand and key mark on the bezel for clear reading of set time. A further unique feature is the fact that all the parts of the T2 case are made from high-strength titanium, beadblasted. The metal is light yet extremely strong. Titanium is almost entirely resistant to weathering, making it ideally suitable for use in seawater. Titanium also offers a high degree of wearing comfort as it causes no allergies.

Technical details

Mechanical Movement

The information on the mechanical movement corresponds to the current production situation in Frankfurt am Main. Due to technical changes, it may happen in individual cases that stock items of our sales partners deviate from this information.

- ETA 2892-A2
- Self-winding mechanism
- 21 bearing jewels
- 28,800 semi-oscillations per hour
- Seconds stop function
- Anti-magnetic as per DIN 8309

Case

- Case made of titanium, bead-blasted
- Sapphire crystal glass in front, anti-reflective on both sides
- Case back screw-fastened, nickel-free
- Crown screwable
- Meet the technical requirements for waterproofness, as set out in standard DIN 8310
- Pressure-resistant up to 200 bar, certified by DNV GL
- According to the technical demands for the diving norm DIN 8306
- Tested based on European diving equipment standards EN 250 and EN14143, certified by DNV GL
- Low pressure resistant

Functions

- Hours, minutes, seconds
- Date display
- Diver's bezel with minute ratcheting and luminous key mark
- Arrow-shaped minute hand for clear reading of set time
- Colour-differentiated luminous paint for minute hand and key mark on the rotating bezel for clear reading of set time

SINN SPEZIALUHREN GMBH

SINN Technologies

- Bezel with TEGIMENT Technology, therefore especially scratch-resistant
- Captive safety bezel
- Ar-Dehumidifying Technology enhances functional reliability and freedom from fogging
- Temperature Resistance Technology, therefore functionally reliable at temperatures from – 45 °C up to + 80 °C

Dimensions and Weight

- Case diameter: 41 mm
- Band lug width: 20 mm
- Case thickness: 13.3 mm
- Weight without strap: 59 gramme

Dial and Hands

- Matte black dial
- Indices coated with luminescent colour
- Hour, minute and second hand coated with luminescent colour
